

Nothing has to be conventional

Electrical Accessories – International Design with Nonconventional Approach

Flat Plug

A plug so flat that it doesn't get in anybody's way.

Details

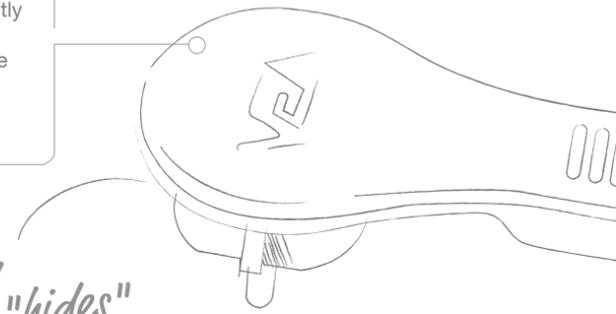

With the 4 colours available, the plug is not conspicuous but blends in with the background. It is not protruding so you can push your sofa closer to the wall.

The flat plug complements perfectly the functionality of VEA products and brings neatness and elegance to the room.

Michał Bonikowski / CTO

With the flat back, the plug virtually "hides" in the wall

A plug which combines functionality with aesthetics!
